G1 Baldwin Hall
Wednesday 9:05 – 9:55

The purpose of pro-seminar is to socialize you into the discipline and profession of sociology, as well as to acquaint you with sociology department faculty. Prior to each session, you are expected to review the vitae/webpage of the professor who will be presenting. You are also expected to ASK QUESTIONS and to BE INVOLVED. Between our faculty and grad students we have literally hundreds of years of collective experience. Take advantage of it!
